1 Introduction

This document provides a summary of some information from the historical contents of the Rootes Archive Centre.

We list Rootes manuals which were issued to garages and owners. This covers: Workshop Manuals, Owner's Manuals and Parts Lists. Service Bulletins are listed separately as they focus on specific upgrades to one or more cars. See http://tardis.dl.ac.uk/ARCC/Bulletins/bull_doc/.

The Archive Centre contains an extensive set of owner's and workshop manuals and parts lists. These are (partially) listed below. We have also received copies of scanned manuals and parts lists from a number of sources and these will be made available subject to copyright, which we believe is covered in our agreement with P.T.

We hope to soon have an fully agreed source of scanned documents for many Rootes vehicles - watch this space...!
